6. Teil (Fragen 86 bis 90)

Verfahren Sie mit den Fragen zum Lesetext wieder wie im 2. Teil.

Laura has just changed her job. Until last month she worked for a large American company in the centre of Frankfurt. The work was interesting, but she worked long hours. She often used to be at the office from eight in the morning to six in the evening or even later. Another problem was that she had to travel for more than an hour to work every day when the trains and buses were full and it was the same when she left the office. A third problem was that she didn't earn enough. A short while ago she found an ad in the newspaper. A computer company near where she lives wanted an office assistant. They offered a high salary. Laura went to an interview and they offered her the job. First she will have to take a computer course, but when she finishes the course next month, she can start work for the new company. She is happy about the new job, of course. She'll certainly earn more than she has done, she doesn't have to work more than thirty-eight hours a week and she will get five weeks' holiday a year, one week more than at her last job.

86 Laura didn't enjoy the work at her last job.

87 She travelled in buses and trains for more than two hours every day.

88 There were a lot of people in the trains when Laura went home.

89 Laura has started her new job.

90 At her new job Laura will have both better pay and more holidays than she had before.

Paul works in Frankfurt for an international business magazine. He writes reports on the situation of the money markets in Europe. He has to travel a lot for his job in order to get the necessary information, but he certainly doesn't mind travelling. Actually, he met his future wife, Laura, during a flight from London to Rome. She was sitting in the seat next to his when an accident happened. Paul was drinking a glass of red wine with his meal when the glass fell out of his hand on to the new dress Laura had just bought in London. Of course, she felt terribly upset. But Paul said "sorry" at least ten times and she began to feel a little happier. When they landed in Rome, they were talking like old friends. A few months later they got married and moved into a new three-room flat in Frankfurt.

A few evenings ago Paul got a late telephone call from his magazine. They wanted to send him to Tokyo for three months to write regular reports about the banks there. He really didn't know how to tell his wife about the offer. In the end they went to an expensive restaurant for a meal and Paul told her. Laura laughed – her company wanted to send her to Tokyo, too, where they had an office. She hadn't found the right time to tell Paul about the offer they had made!

116 Paul doesn't like travelling.

Paul has never been to Japan. Neither has Laura, but when she was a child she used to have a Japanese friend at school. When her friend returned to Japan, they exchanged letters for a while. Now Laura would like to meet her again when she goes to work in Japan. They haven't seen each other for twenty years. "I don't know if I would even recognise her," Laura said. "She was only a little girl when I knew her." Laura wrote a letter to her friend's old address in Japan, but got no answer. She thinks her friend may be married now, and might be living in another city, but she doesn't think Japanese women change their names when they get married. Now she is trying to find out her friend's present address, but that's not easy, not even in the internet, because she doesn't know how to write her friend's name in Japanese. Paul is sure his wife will be successful, though, because in her recent computer course she learned a great deal about doing research on the internet.

- 146 Laura went to school in Japan.
147 She hasn't seen her Japanese friend for two decades.
148 She is embarrassed because she has forgotten her friend's name.
149 Paul thinks Laura is capable of finding information online.
150 Laura took a computer course a short time ago.

Paul and Laura decided to keep their flat in Frankfurt while they were in Japan. Fortunately, Laura had a friend who wanted somewhere to live and they offered her the flat until they needed it again. There was still one problem they had to solve and that was to do with Paul's parents. Mr and Mrs Spencer had retired and had recently gone to live in a village in the country. Paul and Laura were worried about them. Although they were both in good health, Paul's parents always found it difficult to make friends. When Laura and her husband phoned them and mentioned their plans for the future, neither of Paul's parents said very much. Laura and Paul decided to leave for Japan only when Paul's parents had found some new hobbies and interests. One day Laura travelled to the village where Mr and Mrs Spencer lived. She hadn't told them about her visit because she wanted to see for herself what it was like there. She arrived in the middle of a party, which Mr and Mrs Spencer had organized for the people in the village, many of whom had been very active for years in business, too, but now they were also looking for new interests and new friends. They all belonged to a club and met regularly. They played cards, organized trips and even arranged evening classes, where they learnt languages and useful information about hobbies like gardening and taking photos. Paul's parents laughed when they heard that their daughter-in-law was worried. "Don't worry about us," they said. "We'll manage – and you're still only a phone call away, aren't you?"

176 Laura and Paul's flat would be empty until they returned.

177 Paul's parents were still working.

178 Neither of Paul's parents were ill.

179 Laura didn't tell Mr and Mrs Spencer that she wanted to visit them.

180 There were plenty of activities in the village for retired people.

It was only when the plane tickets arrived for their flight to Tokyo that Laura suddenly realised what a big step this was. She had been looking forward to moving to a new job in a new country, but now she was not sure if she had made the right decision. She talked to Paul about it and he advised her to find out as much as she could about the country in the few weeks before their departure. One evening he invited some Japanese friends from the office to dinner. Although he had told Laura in advance, she was a little nervous about meeting so many new people from a country she had only read about. Would they like the food she was going to serve? And weren't there a lot of customs the Japanese had, such as the way of greeting people? What would happen if she did something the Japanese considered not very polite? She began to wish that Paul had not invited them. However, her worries were unnecessary. When their guests arrived, they acted just like their European guests, except that they were more polite. For the first time, Laura began to relax and enjoy the conversation about her new home.

- 206 Laura was terribly anxious about travelling by air.
- 207 Paul said she should learn as much as possible about Japan.
- 208 Paul told Laura that some Japanese were coming to dinner.
- 209 Laura was worried that her guests might not be polite.
- 210 Paul and Laura and their guests talked about Japan.
